

VECTOR TECHNOLOGIES SA
is currently working on R&D project
co-funded with European Funds:

Giga-Fiber - technologies for multi-gigabit
data transmission within the fiber
telecommunication network – standard
DOCSIS 3.1

The aim of the project is to introduce global innovation to the market by developing an offer for next-generation cable networks that enable full implementation of the data transfer in DOCSIS 3.1 standard.

Fundings from UE: 7.977.282,20 PLN
